DARTSLIVE Co., Ltd.

New DARTSLIVE Service Set to Launch in Autumn!
A Brand-New Entertainment Experience

In this coming autumn, DARTSLIVE Service that is featured in the latest networked electronic darts machine “DARTSLIVE2” and touch-screen game machine “TouchLive”, will be renewed under the slogan of “one card one world”.

We will provide new services in an endeavor to create entertainment enjoyable to everyone regardless of his/her darts skill, age and nationality.

At first, DARTSLIVE2 and TouchLive top menu will be totally renewed. The highly user-friendly interface enables easy darts machine operations.

Game content improvements include “GLOBAL MATCH”. This new content in conjunction with the video camera enables players in different countries such as Hong Kong and Taiwan in Asia, North America and Europe to play real-time network matches. A purely fun-based game “LUCKY BALLOON” will be introduced on the DARTSLIVE2 to accommodate the needs of a variety of players of all skill levels.

Also, through the implementation of “TouchLive FLIGHT”, the globally standardized game score grading system, we provide a wide range of entertainment that connects “people” to “people”.

We continue to enhance DARTSLIVE services on a daily basis and develop the world of diverse amusements that provide “enjoyment” and “happiness” to the people around the world.
