3. The player who throws closest to the center of the BULL can choose his/her throwing order. If the first player's dart hit the center of the BULL, the second player is required to acknowledge the first player's dart is in the center of the BULL, remove the dart and then throw for the cork.
4. In the first leg, the throwing order can be decided by the cork winner.
5. In the second to fourth legs, the player who lost in the previous leg will throw first.

■ How to amend incorrect scoring

1. If a dart machine incorrectly records the score and if a dart thrown is remaining stuck in the board, "Reverse-A-Round" function will be used to reverse the score. Correct points will be entered by pressing the target segment where the dart is stuck. If a dart thrown does not stick in the board and falls off, dart machine reaction (points) will be considered as a valid score.
2. Please be aware that incorrect score cannot be amended, if darts stuck in the board are removed, the round is forwarded to the next player and the opponent player throws darts.
3. In case the game has to be suspended and restarted for reasons such as power outage, with mutual consent of players, event staff will restore the game scores and progress. If it is not possible to restore the game, the leg in question will be reset and players will be asked to play a new game.
